

AYUSHMAAN MISHRA

Full-Stack Developer | Angular | Spring Boot | React | TypeScript | Node.js

+91 9149084611 | ayush8171wiz@gmail.com | Portfolio | GitHub | LeetCode

PROFESSIONAL SUMMARY

Computer Engineering graduate from GBPUAT Pantnagar building secure full-stack applications with Angular, Spring Boot, React, TypeScript, Node.js, FastAPI, PostgreSQL and MongoDB. Strong in REST APIs, JWT authentication, role-based access, dashboard workflows, backend validation and production-ready frontend components.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Java, Python

Frontend: Angular, React, SCSS/SASS, React Flow

Backend: Spring Boot, Node.js, Express.js, FastAPI, Laravel, REST APIs

Databases: PostgreSQL, MongoDB

Auth & Security: JWT, HTTP-only Cookies, Refresh Tokens, RBAC, CSRF

Tools: Git, GitHub, Postman, Vercel

EXPERIENCE

Freelance Frontend Developer | 2025 - Present

- Built responsive portfolio and business websites using the right tools for each client's requirements.
- Converted requirements into reusable UI components, mobile-first layouts and deployment-ready pages.

PROJECTS

SchoolSys - Current Project | Angular, Spring Boot, PostgreSQL, Laravel, JWT - Building school profile, student, staff, class and attendance modules with HTTP-only auth, refresh-token rotation and ownership validation.

SkillSphere - Skill-Sharing Platform | React, TypeScript, Node.js, Express, MongoDB, Socket.io, Polygon - Built auth, courses, booking, messaging, notifications, wallet/admin flows and Polygon audit anchoring for transaction verification.

Pipeline Builder & DAG Validator | React, React Flow, FastAPI, Python - Created a visual node/edge editor with a FastAPI parser that returns node count, edge count and DAG validation using DFS.

E-Commerce Application | MERN Stack, REST APIs - Implemented product browsing, authentication, cart management, address workflows and reusable REST API flows.

Additional Projects: Community Chat Application | Fantasy Game Application | Hotel Management System | Portfolio Website

ACHIEVEMENTS

- 1st Place - IoT and Arduino Robotics Competition; led the team to victory.
- Solved 170+ Data Structures and Algorithms problems on LeetCode.
- Built deployed full-stack projects across Angular, React, Spring Boot, Node.js, FastAPI, PostgreSQL, MongoDB and WebSockets.

EDUCATION

College of Technology, GBPUAT Pantnagar - B.Tech, Computer Engineering (2022 - 2026) | CGPA: 7.0

Shivalik Holy Mount Academy, Kashipur - Intermediate, PCM | 96%

COURSEWORK & CERTIFICATIONS

Coursework: DSA, DBMS, OOP, Operating Systems, Computer Networks, Software Engineering

Certifications: Web Development, Python, Core Java, C & C++ - Internshala
