PROFESSIONAL SUMMARY

Computer Engineering graduate and Software/Full-Stack Developer with hands-on experience building scalable web applications, REST APIs and database-driven systems. Experienced in developing modern frontend and backend solutions using React, TypeScript, Node.js, Express, MongoDB and other technologies. Strong foundation in data structures, algorithms, OOP and DBMS, with experience working in Agile (sprint-based) development environments and collaborating through Git and GitHub.

TECHNICAL SKILLS

Languages	C++, Java, Python, JavaScript, TypeScript
Frontend	React.js, HTML5, CSS3
Backend	Node.js, Express.js, FastAPI, REST APIs
Databases	MongoDB, PostgreSQL, SQL
Core CS	Data Structures & Algorithms, OOP, DBMS
Tools & Practices	Git, GitHub, JWT, Socket.io, Polygon, Agile (sprint-based development)

EXPERIENCE

Full-Stack Developer Intern | ModelSuite.AI

09 July 2026 – Present

Remote

- Develop and maintain frontend and backend features, reusable UI components, API integrations and assigned product workflows.
- Investigate application issues, implement fixes and verify behavior across development and testing environments.
- Work through sprint-based Agile iterations and collaborate using Git workflows, structured branching, code reviews and merge processes.

PROJECTS

SkillSphere – Skill-Sharing Platform | React, TypeScript, Node.js, Express, MongoDB, Socket.io, Polygon

Full-stack learning marketplace for course discovery, tutor booking, real-time messaging, notifications, wallet workflows and administration, with Polygon-based transaction audit anchoring for enhanced transparency.

Pipeline Builder & DAG Validator | React, React Flow, FastAPI, Python

Interactive workflow editor that parses node-and-edge graphs through FastAPI and performs node/edge analysis and DAG validation using DFS, with visualization and real-time feedback.

E-Commerce Application | MERN Stack, REST APIs

Full-stack ecommerce application implementing product browsing, authentication, cart management, address workflows and reusable REST API integrations.

SchoolSys – School Management System | Angular, Spring Boot, PostgreSQL, Laravel, JWT

Role-based school management platform covering student, staff, class and attendance modules with secure authentication, refresh-token rotation and ownership validation.

Additional Projects: Community Chat Application | Fantasy Game Application | Hotel Management System | Portfolio Website

EDUCATION

College of Technology, GBPUAT Pantnagar – B.Tech, Computer Engineering

2022 – 2026 | CGPA: 7.09

Shivalik Holy Mount Academy, Kashipur – Intermediate, PCM

2021 | 96%

CERTIFICATIONS & TRAINING

Web Development & Real-Time Project Training | NullClass

Jul 2024

- Completed Web Development training with real-time project work on building a YouTube-like website.

Web Development Training | Internshala

Jul 2023

- Completed 8-week training covering HTML, CSS, Bootstrap, DBMS, PHP, JavaScript, React and final project work.

Programming with Python Training | Internshala

Aug 2023

- Completed 6-week training covering Python, OOP, SQLite connectivity, PyQt GUI development and final project work.

Programming with C and C++ Training | Internshala

Apr 2024

- Completed 8-week training covering C, C++, OOP fundamentals and application-building practice.

Core Java Training | Internshala

Feb 2025

- Completed 8-week training covering Java fundamentals, OOP, database handling, GUI programming and Java-AI modules.
